APPENDIX 1 – PHASE ONE BEACH FOLLOW-UP VISITS

**JAMAICA ENVIRONMENT TRUST
BETTER BEACHES FOR JAMAICANS PROJECT PHASE I
MONITORING FIELD VISIT CHECKLIST**

Date of Visit	April 29, 2021
Time of Visit	11:30am
Name of Site Visited	Alligator Pond
Town & Parish	Manchester
Field Monitor Name(s)	Lauren Creary

Use schedule 4 as a guide to conduct your field visit

Step	Action	YES	NO	N/A
1	Did you meet with a community member/contact to discuss progress on their beach	x		
<p>Comments:</p> <ul style="list-style-type: none"> • Rushie Niel (via telephone) • Leon Wilson • Jermaine Carr 				
2	Has there been any progress made on issues and concerns raised since the last visit?	x		
<p>Comments:</p> <p>Still trying to establish sanctuary Alligator Reef.</p> <ul style="list-style-type: none"> • Partying on the reef (1 boat, ten people; 15 boats) • Called Marine Division, no visit. • Not patrolling near area. • Kills turtles. <p>8/9 environmental wardens</p> <ul style="list-style-type: none"> • Meet with head of marine division, Manchester Division. 				
Step	Action	YES	NO	N/A
3	Have the beach facilities changed since the last visit?	x		

Comments: A skip built but not maintained. The drain construction started in 2019 has been completed				
4	Is garbage present on the beach?	x		
Comments: Yes, littering.				
5	Are there garbage bins on the beach?		x	
Comments: Plastic bins cannot be placed on the beach due to wind. Other types of bins have been suggested but there is no one in place to clear the garbage from the beach. Garbage must be clear and carried to the skip				
6	Is the garbage collected on a regular basis? (Regular basis: at least once per week)		x	
Comments: Sometimes no collection 2-3 weeks. Garbage collection has improved, however, in comparison to previous years. Meeting were held in the National Solid Waste Authority and Local Government to discuss the issue.				
7	What garbage management strategies have been put in place on the beach? (i.e. signs, separation of garbage, composting, strategic location of bins, use of eco-friendly disposables utensils, etc)			
Comments: The Alligator Pond Citizens Association conducted regular beach cleanups (monthly).				
Step	Action	YES	NO	N/A
8	Does burning take place on the beach?			
Comments: No. Not regularly (mostly leaves)				
9	Is there evidence of beach erosion taking place?			
Comments: Yes. Not getting better				
10	Have steps been taken to avert beach erosion?			
Comments: No. Bar built near river.				
11	Is there evidence of raking on the beach?		x	
12	Are there any new issues/concerns?			

Comments: Due to the restrictions on events since 2020, people have resorted to having parties on Alligator Reef. Reports to authorities have been unsuccessful.

Step	Action	YES	NO	N/A
13	Did you take photographs to show progress/changes	✓		

Additional Comments:

The Tourism Enhancement Fund has had town hall meetings to discuss possible development of the beach. This development would include a boardwalk, gazebos and stalls on the beach.

**JAMAICA ENVIRONMENT TRUST
BETTER BEACHES FOR JAMAICANS PROJECT PHASE II
MONITORING FIELD VISIT CHECKLIST**

Date of Visit	May 7, 2021
Time of Visit	10:45am
Name of Site Visited	Winnifred Beach
Town & Parish	Fairy Hill, Portland
